

# Reoccupy. Your Space. Reassure. Your People.

## Create confidence in your employees and customers when you're **ready to return to the office.**

SOLID provides specialty surface cleaning, disinfecting, and sanitizing solutions to businesses that are preparing to reoccupy their space. We take a consultative and data-driven approach to developing a custom solution so you feel confident when it's time to return.

### Three Keys to a Successful Return to Office

- + **Prioritize Health and Safety**  
The threat of Covid-19 is still present.

---

- ✓ **Build Trust**  
Customers and employees may still be wary.

---

- ⊘ **Mitigate Risk**  
Take appropriate measures for safe harbor.

## SOLID can help you prepare your space for a safe and healthy return.

We'll determine:

---

What is the right approach -affordable and sustainable, but effective and visible?

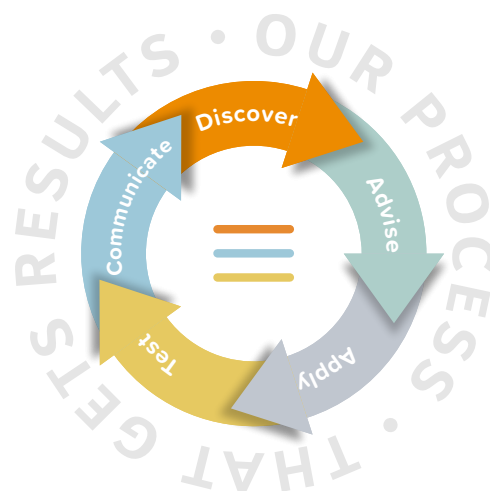

---

What are the right interventions and chemistries?

---

What is the application protocol and frequency?

Then our expert technicians put the plan into action seamlessly and reliably.

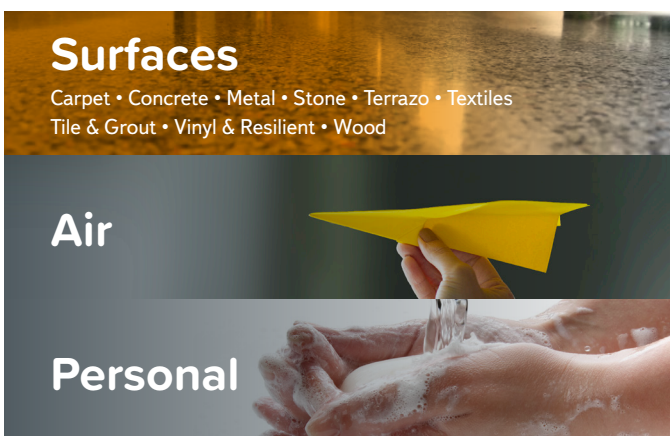

# How Can SOLID Help You Return to Office?

## By **BUILDING TRUST** and **MITIGATING RISK** through the **LAYERS OF PROTECTION**

that you get from a comprehensive and effective cleaning, sanitization, and disinfection regimen that is personalized for the unique needs of your space.

### Layers of Protection

Multiple threat vectors require multi-layered solutions.  
**We can help you find the Right Solution for  
Your Surface Layer.**

### Our Return to Office Solutions

#### Deep Cleaning

Reduces visible soiling and creates a hygienic environment

#### Disinfection

Remediate potentially infected surfaces to remove and degrade the virus

#### Antiviral Coating

SurfaceWise2, the only EPA-approved antiviral treatment, for continuous protection, applied to the right surfaces at the right frequencies

#### Abatement

On-demand response to mitigate spread in case of infection and prepare space for re-occupation.
